Libraries: React js

Frameworks: Spring Boot, Node.js, Express js

Database: Mysql, MongoDB

Experience

Quinx innovations Pvt Ltd.

20 january 2025 - 20 april 2025

MERN developer Intern

Benagluru, Karnataka

- Developed and maintained dynamic and responsive web applications using React.js and modern frontend technologies.
- Implemented reusable and optimized components with React Hooks, Context API, and state management libraries like Redux.
- Integrated RESTful APIs and GraphQL for efficient data fetching and server communication.
- Enhanced UI/UX by implementing responsive and accessible designs using Tailwind CSS and Material-UI.
- Optimized application performance through lazy loading, code splitting, and memoization techniques.
- Worked with React Router for seamless navigation and client-side routing in single-page applications (SPA).
- Utilized testing frameworks like Jest and React Testing Library to ensure application reliability and maintainability.
- Collaborated with backend teams to define API contracts and troubleshoot integration issues.

Projects

Furniture.com / JavaScript, PHP, HTML, CSS, and Bootstrap.

2022

- An e-commerce website allows users to browse and purchase various types of furniture online. The site features a wide range of furniture products available in different models and designs. Users can easily browse through these products by category. If a user likes a product, they can add it to their shopping cart for purchase.

MEDPLUS.COM / MERN STACK

02/2024 - 04/2024

- E-Commerce website that allows user to buy medicines online
- We Use BCrypt AND JWT and Email and OTP for security.
- we use nodemailer for otp verification and razorpay for payment.
